MAZZER

ON-DEMAND ESPRESSO GRINDER · 71 MM CONICAL BURRS

KOLD S ELECTRONIC

Mazzer's high-volume conical grinder, built to keep grounds cool when the bar is flat out. A belt drive, low burr speed and twin fans keep motor heat away from the coffee, and it grinds about 5 g a second.

Made by Mazzer
Venice, Italy

71 mm	5 g/s	420 rpm	1.5 kg
conical burrs (186C)	average grinding speed at 50 Hz	low burr speed at 50 Hz	bean hopper capacity

Figures published by Mazzer. Grinding speed is Mazzer's average (1 s per 5 g at 50 Hz).

WHAT IT DOES WELL

01
Belt-driven burrs
The motor drives the burrs through a belt and sits apart in a split chassis, so its heat stays away from the grinding chamber.

02
Low-speed conical burrs
Mazzer-made 71 mm conical burrs turn at just 420 rpm at 50 Hz, grinding fast while adding little heat to the coffee.

03
Twin cooling fans
A double fan system keeps the grinder cool through long service peaks, helping flavour stay consistent from morning to close.

04
Grind Flow Control
A removable aluminium outlet with three interchangeable wire dampers reduces clumping, static and mess on the counter.

05
Clean without re-dialling
The grinding chamber opens for cleaning without losing the grind setting, and a lap-counter knob shows exactly where you are.

06
Hands-free dosing
Grinding starts from the portafilter, with three programmable dose times and an adjustable portafilter holder that centres the dose.

WELL SUITED TO High-volume espresso bars, busy multi-group cafés and coffee chains running long peaks through one grinder.

KOLD S ELECTRONIC — SPECIFICATION

MAZZER

What you need to plan the space and power for this grinder. We confirm the details when we set it up.

GRINDER		
	Burrs	Conical, 71 mm (Mazzer 186C)
	Grinding speed	Average 5 g/s at 50 Hz (6 g/s at 60 Hz)
	Burr speed	420 rpm (50 Hz) · 500 rpm (60 Hz)
	Bean hopper	1.5 kg
	Dosing	On demand, 3 programmable dose times
	Cooling	Belt drive, split chassis, double fan
	Dimensions (W × D × H)	215 × 480 × 700 mm
	Weight	30 kg

ELECTRICAL		
	Power	800 W
	Supply	Single phase · standard UK 13 A plug (inferred)

SIZE & FOOTPRINT

Size	215 × 480 × 700 mm
Weight	30 kg

BEFORE IT ARRIVES

- [ ] 13 A socket close to the grinder position
- [ ] Counter space of 215 × 480 mm, rated for 30 kg
- [ ] 700 mm height clearance under shelves, plus room to fill the hopper
- [ ] Knock box and brush station alongside

SUPPLIED, SET UP AND LOOKED AFTER BY MSS

Set-up & commissioning

We set up and commission the grinder on site, and show your team how to use and clean it properly.

Burrs, maintenance & repairs

Planned maintenance, burr replacement and responsive repairs from our own engineers, so grind quality stays where it should be.

Warranty & ongoing support

New equipment comes with a 12-month parts and labour warranty, subject to manufacturer terms. After that, we look after it for as long as you have it.
