Victoria Arduino

COMPACT ON-DEMAND ESPRESSO GRINDER · 65 MM BURRS

ATOM PRIMA EDITION

A small on-demand espresso grinder with 65 mm flat burrs, designed as the partner to the E1 Prima. It suits lower-volume sites that want fresh, programmable doses from a grinder that takes up little counter space.

Made by Victoria Arduino
Belforte del Chienti, Italy

65 mm	0.5 kg	180 mm	9.5 kg
flat steel burrs	bean hopper	wide, for tight counters	net weight

Figures published by UK Victoria Arduino dealers; no current manufacturer data sheet was available.

WHAT IT DOES WELL

01
Grinds on demand
Each dose is ground straight into the portafilter from programmable settings, so coffee is fresh and less is wasted at the end of the day.

02
65 mm flat burrs
Hardened steel flat burrs give an even espresso grind, with a stepless micrometric adjustment for fine changes to extraction.

03
Quieter running
Internal damping isolates the motor to cut vibration and grinding noise, useful in offices and open-plan front-of-house areas.

04
ACE clump control
The ACE System is designed to break up clumps and reduce static, so grounds fall cleanly and the dosing area stays tidier.

05
Easy burr service
A mechanical burr holder allows burrs to be removed quickly for cleaning and replacement, which keeps service visits short.

06
Display and counter
A colour display shows settings and a dose counter, and a spotlight over the portafilter fork helps staff see the dose.

WELL SUITED TO Offices, small restaurants, hotels and lower-volume cafés, particularly alongside an E1 Prima.

ATOM PRIMA EDITION — SPECIFICATION

What you need to plan the space and power for this grinder. We confirm the details when we set it up.

MACHINE		
	Dimensions (W × D × H)	180 × 227 × 430 mm
KG	Net weight	9.5 kg
	Burrs	65 mm flat, hardened steel
	Bean hopper	0.5 kg
	Recommended volume	Up to 4 kg of coffee per day
	Adjustment	Stepless micrometric
	Dosing	Electronic on demand, programmable

ELECTRICAL		
	Supply	230 V single phase · standard 13 A socket

SIZE & FOOTPRINT

Size	180 × 227 × 430 mm
Weight	9.5 kg

BEFORE IT ARRIVES

- [ ] Standard 13 A socket beside the espresso machine
- [ ] Counter space of 180 × 227 mm next to the machine
- [ ] 430 mm clear height under shelves or overhead cupboards

SUPPLIED, SET UP AND LOOKED AFTER BY MSS

Set-up & commissioning

We set up and commission the grinder on site, and show your team how to use and clean it properly.

Burrs, maintenance & repairs

Planned maintenance, burr replacement and responsive repairs from our own engineers, so grind quality stays where it should be.

Warranty & ongoing support

New equipment comes with a 12-month parts and labour warranty, subject to manufacturer terms. After that, we look after it for as long as you have it.
