Victoria Arduino

COMPACT SINGLE-GROUP ESPRESSO MACHINE WITH PUREBREW

E1 PRIMA EXP PUREBREW

The E1 Prima with PureBrew added, so one compact machine makes espresso, milk drinks and pressure-free filter-style coffee. It is a practical way to offer a filter menu on a small counter without a separate brewer.

Made by Victoria Arduino
Belforte del Chienti, Italy

411 mm	1.5 l	2,600 W	38 kg
wide, for short counters	steam boiler	maximum power	net weight

Figures published by Victoria Arduino.

WHAT IT DOES WELL

01

PureBrew extraction

A dedicated PureBrew mode makes pressure-free, filter-style coffee through the group, alongside espresso and tea or infusion extractions.

02

NEO heating

The coffee circuit uses Victoria Arduino's NEO instant-heating system, warming only the water needed so a small machine keeps stable temperature.

03

EasyCream milk

A steam wand with automatic cut-off stops at the preset milk temperature, so staff get the same texture drink after drink.

04

VIS dose estimate

The Virtual Intelligent Scale estimates beverage weight in the cup by algorithm, helping staff repeat recipes and reduce waste.

05

Tank or plumbed

Runs from its internal tank or on a direct mains connection, so it can go where there is no water feed.

06

Compact footprint

At 411 mm wide and 379 mm high it fits on short counters, back bars and office kitchens without dominating the space.

WELL SUITED TO Specialty cafés, offices, showrooms and boutique hospitality that want espresso and filter-style coffee from one small machine.

E1 PRIMA EXP PUREBREW — SPECIFICATION

What you need to plan the space and power. We confirm the details before delivery.

MACHINE		
	Dimensions (W × D × H)	411 × 510 × 379 mm
	Net weight	38 kg
	Steam boiler	1.5 l
	Coffee boiler	0.14 l, NEO
	Extraction modes	Espresso · PureBrew (pressure-free) · tea and infusions
	Group height	95 mm

ELECTRICAL		
	Power	2,600 W maximum
	Supply	220–240 V single phase, 50/60 Hz · standard 13 A socket

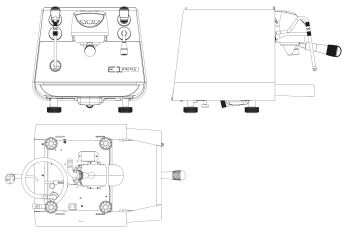

WATER & DRAINAGE		
	Water	Internal tank, or direct mains connection · 3/8" filling hose supplied
	Waste	Ø25 mm drain hose supplied for plumbed installation
	Water treatment	Filtered or softened water, sized to your supply at survey

SIZE & FOOTPRINT

Size	411 × 510 × 379 mm
Weight	38 kg

FRONT, SIDE & UNDERSIDE VIEWS

Width	411mm
Depth	510mm
Height	379mm
Cupwarmer	330 x 280mm
Group height	95mm
Power	min 1000/max 2600W

Drawing: Victoria Arduino E1 Prima EXP brochure

BEFORE IT ARRIVES

- [ ] Standard 13 A socket within reach (2,600 W maximum draw)
- [ ] Counter space of 411 × 510 mm, rated for 38 kg
- [ ] Mains feed (3/8") and drain only if running plumbed-in
- [ ] Space to refill the tank if it will run from the reservoir

SUPPLIED, SET UP AND LOOKED AFTER BY MSS

Installation & commissioning

Our engineers deliver, set up and commission the equipment, and show your team how to use and clean it.

Bronze, Silver & Gold service plans

Planned preventative maintenance, with labour included on every plan. You choose the level of cover that matches your trading hours.

Warranty & ongoing support

New equipment comes with a 12-month parts and labour warranty, subject to manufacturer terms. After that, we look after it for as long as you have it.
