Victoria Arduino

GRIND-BY-WEIGHT ESPRESSO GRINDER · 75 OR 85 MM BURRS

MYTHOS MYG
MYG75 · MYG85

Mythos grinders with Gravitech, a scale built into the portafilter fork that doses by weight and corrects itself shot by shot. The MYG75 and MYG85 suit high-volume bars that want accurate doses and less waste without weighing every shot by hand.

Made by Victoria Arduino
Belforte del Chienti, Italy

75/85 mm	3/4 g/s	1.5 kg	195 mm
burrs, MYG75 / MYG85	grinding speed, MYG75 / MYG85	bean hopper	wide, for tight bars

Figures published by Victoria Arduino. Grind speed from the Mythos handbook; varies with setting.

WHAT IT DOES WELL

01
Gravitech by weight
A load cell in the fork weighs each dose as it grinds and adjusts the next one automatically, holding the dose to target through service.

02
Temperature control
Clima Pro keeps the grinding chamber at a set temperature, so particle size stays consistent from the first shot of the morning to peak service.

03
Touchscreen control
A touchscreen stores three programmable doses and shows counters and maintenance alerts, so settings are easy to check and hard to lose.

04
Two burr sizes
The MYG75 suits most espresso bars, while the MYG85's larger burrs grind faster for the highest-volume sites.

05
Adjustable fork
The portafilter fork adjusts in height for different baskets, and a filter-coffee fork can be fitted for brewing doses.

06
Built for champions
Mythos is the official grinder of the World Barista Championship, and the range was refined with competition baristas for workflow and consistency.

WELL SUITED TO High-volume specialty cafés, coffee chains and busy hotel bars that want weighed doses without manual scales.

MYTHOS MYG MYG75 · MYG85 — SPECIFICATION

What you need to plan the space and power for this grinder. We confirm the details when we set it up.

MACHINE		
	Dimensions (W × D × H)	195 × 395 × 479 mm (both models)
	Net weight	MYG75: 24 kg · MYG85: 24.7 kg
	Burrs	MYG75: 75 mm · MYG85: 85 mm
	Bean hopper	1.5 kg
	Grinding speed	MYG75: 3 g/s · MYG85: 4 g/s
	Dosing	Gravimetric (Gravitech), 3 programmable doses
ELECTRICAL		
	Power	MYG75: 600 W · MYG85: 700 W at 220–240 V
	Supply	220–240 V single phase, 50/60 Hz · standard 13 A socket

SIZE & FOOTPRINT

Size	195 × 395 × 479 mm (both models)
Weight	MYG75: 24 kg · MYG85: 24.7 kg

BEFORE IT ARRIVES

- [ ] Standard 13 A socket beside the espresso machine
- [ ] Counter space of 195 × 395 mm, rated for about 25 kg
- [ ] 479 mm clear height plus room to lift the hopper off

SUPPLIED, SET UP AND LOOKED AFTER BY MSS

Set-up & commissioning

We set up and commission the grinder on site, and show your team how to use and clean it properly.

Burrs, maintenance & repairs

Planned maintenance, burr replacement and responsive repairs from our own engineers, so grind quality stays where it should be.

Warranty & ongoing support

New equipment comes with a 12-month parts and labour warranty, subject to manufacturer terms. After that, we look after it for as long as you have it.
